TECHNICAL SPECIFICATIONS

SPS 16000

A (3 BOOM)

B (4 BOOM)

TECHNICAL SPECIFICATIONS

Model	SPS 16000 A	SPS 16000 B
Max. lifting moment [mt]	16.0	16.0
Max. lifting capacity [kg/m]	7000/2.5	7000/2.5
Number of booms [-]	3	4
Max. hydraulic outreach [m]	9.5	12.3
Max. lifting angle [°]	75	75
Slewing angle [°]	continuous	continuous
Stabilizer spread (std.) [mm]	5300	5300
Operating pressure [MPa]	26	26
Required oil flow [L/min]	55	55
Oil tank capacity [L]	100	100
Crane Weight [kg]	2450	2650

- High tensile strength extension booms to optimize the lifting height and the working range
- Best lift-to-weight ratio in the industry
- The wide outrigger span ensures the best stability in all mounting situations
- The standard package includes 2 working lights to ensure safe operation, day and night
- The SPS 16000 is equipped with an integrated oil reservoir for a quick, simple, and cost efficient installation
- A lower seat control is optionally available for convenient crane operation
- Optionally available is an over-load protection system to ensure safe crane operation
- SANY PALFINGER produces according to European Quality Standards to ensure the best reliability, performance, and safety in the industry
- Optimized for installation on 2 or 3 axle trucks
- A Safety Package is optionally available

DIMENSIONS

*The actual product dimensions can vary depending on the optional equipment

STANDARD FEATURES

HD Paint

HIGH DENSITY PAINT SYSTEM

- Demonstrates superior performance
- Long-term UV-resistance
- Attractive aesthetics

ERGONOMIC DESIGN

- Practical and Attractive
- SANY PALFINGER follows the general principles of ergonomics to ensure a comfortable and safe crane operation

POPULAR OPTIONS

OVERLOAD PROTECTION SYSTEM

- Built in safety function
- Stops all movements that could further increase the lifting moment

RADIO REMOTE CONTROL

- Allows to remotely control the crane
- Provides the best-possible overview of the loading process and ensures higher efficiency in use

HIGH PRESSURE AND RETURN FILTER

- Ensures proper functionality and lifetime
- Two oil filters are installed on each crane

ADVANCED PROPORTIONAL HYDRAULIC SYSTEM

- Allows the operator to use multiple functions simultaneously
- Increases working speed

LOAD INDICATOR

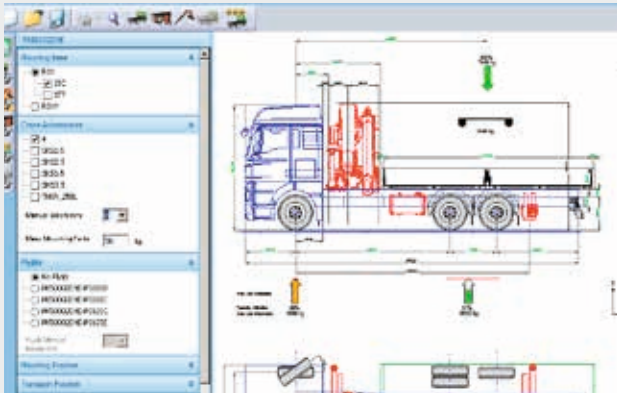

- Provides the crane operator valuable information about the current load situation

LOWER SEAT

- Ensures proper visibility and safety
- Enhanced version of the floor control

PROJECT ENGINEERING

The SANY PALFINGER applications engineering team addresses the requests of our clientele from subframe design to stability calculations and provide the best vehicle integration solutions.

TECHNICAL SUPPORT

Service is SANY PALFINGER's top priority. Your products are supported by our highly trained, professional, and global service network.

COMPLETE VEHICLE INSTALLATIONS

Complete vehicle installations are provided directly from SANY PALFINGER. We ensure the most economic vehicle installations at the highest quality level.

EUROPEAN QUALITY

SANY PALFINGER produces according to European Quality Standards to ensure the best Reliability, Performance, and Safety in the Industry.
