

SPK 10000

- · Equipped with load holding valves for safe crane operations
- High speed boom extension and retraction with Return Oil Utilization
- Optimized lifting performance with the use of high tensile steel and hexagonal boom design
- Lightweight yet robust construction according to European standards (EN 12999)
- Optional Overload Protection and Emergency Stop Button
- Professional installation solutions
- Suitable for installation on 2-axle trucks

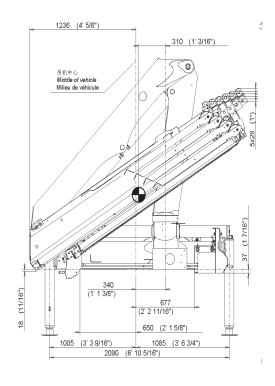

9.5mt
